Yes. Thanks. I often get those terms transposed.

Subject: RE: Draft Village HAMP MOA

Afternoon Tim,

I just had a chance to review the MOA and am going to start a comment circulation over here at IHS. Most of my comments did not change the meaning of the document.

My most significant comment was on "The respective Hopi Villages agree to enter into a wholesale water purchase agreement or operations and maintenance agreement with the Hopi Public Utility Authority to purchase water at a reasonable levelized rate per household at the time of rural water system commissioning throughout the estimated 40 Year life of the project." I'd maybe say something like "The respective Hopi Villages agree to enter into a wholesale water purchase agreement or operations and maintenance agreement with the Hopi Public Utility Authority to purchase water per a uniformly applied fee structure at the time of rural water system commissioning throughout the estimated 40 Year life of the project."

I'll get this back over to you after it circulates over here.

Hope to see you out there tomorrow.

Thanks,

Jesse

Subject: FW: Draft Village HAMP MOA

Lo!ma Jesse,

A series of village MOA facilitation meetings resulted in the attached draft MOA.

A resolution is scheduled for Tribal Council Action the first week of June. We anticipate an additional more detailed MOA may be required after final PER approval, final design, regulatory injunction and funding phases of the proposed project. Let us know if IHS has suggestions for this initial step MOA committing villages to the HAMP concept?

Cheers,

Tim 928 401 4000

Subject: Draft Village HAMP MOA

Arsenic effected villages,

Thank you for your review and revisions of the attached DRAFT HAMP Memorandum Of Agreement.

Executing a HAMP agreement identifying the Tribe, Village and HPUA responsibilities is required for HAMP planning, re-allocation of expiring USEPA/IHS grant funding, USDA HAMP Grant/Loan application and regulatory recognition that the respective villages are interested in participating in the HAMP project.

Please add additional revision suggestions, request additional HPUA assistance for presentation to your Village or execute the agreement prior to June 7, 2017.

Kwak,kwah.

Tim
